

Pharmaceutical Industry Programme

*Validated Cleaning Solutions for all your
Process Hygiene needs*

Ecolab your Natural Partner in Process Plant Cleaning

Ecolab can offer you:-

It is our aim to have a thorough understanding of your needs and requirements. All our customers have unique needs and we take the time to understand your business and tailor our solution for you.

Cosa Programme Promise

Ecolab will provide a fully proven cleaning method with comprehensive Validation support

Our extensive range of GMP products has been specifically designed for the removal of tough residues found in the Pharmaceutical Industry such as:-

- * Organic/In-Organic pigments e.g. titanium, iron and zinc oxides
- * Thickening agents e.g. natural gums
- * Tablet coatings
- * Tablet release agents e.g. silicones
- * O/W and W/O emulsions e.g. lotions, creams, ointments

With specific application methods in mind, we offer Cosa products suitable for CIP, Manual, Foam and Machine based cleaning processes.

Cleaning Validation Support

Ecolab understand the importance and cost associated with cleaning validation to your business. We have experience of the requirements of the regulatory authorities such as FDA and PIC.

Our P3 Interactive CD is available to all customers using the P3 Cosa Product Range.

This Handbook helps guide you through the [Cleaning Validation Process](#) saving you time and money.

We offer complete service and systems to cover all of your institutional, industrial and hospital cleaning and sanitation needs. Ask for more of our products and services in Europe and Worldwide. Ecolab - Your Partner for Total Hygiene Solutions.
